Senior Platform Engineer

Bandora is looking for a **Senior Platform Engineer** with enthusiasm and skills to join the team. This is a very exciting role for an experienced candidate as there will be a lot of room to influence the operations and deployment architecture. The candidate will work closely with the CTO and the software team to shape the company infrastructure.

At Bandora we are creating the future of how buildings are operated. Buildings are the top energy consumers in the world, amounting to around one third of the global CO_2 emissions. At the same time, maintaining comfortable indoor conditions is a huge challenge, especially for commercial buildings with multi-occupancy. Bandora's cloud-based platform gathers real-time IoT data from systems inside a building, and provides dashboards, analytics, anomaly detection and automation with the goal of eliminating energy waste and improving occupant comfort. Our mission is autonomous, greener, and more comfortable buildings.

Location: Lisbon or Porto offices

Necessary skills:

- Expert knowledge of CloudOps and AWS

- Deep understanding of infrastructure-as-code methodologies

- Good skills with DevOps methods and tools

- Experience with Docker and Kubernetes

- Broad knowledge of the state-of-the-art in tools, techniques, etc.

- Good communication skills are essential

Desired skills:

- Ability to code in Python and do Bash scripting

- Knowledge of cloud/network security concepts

- Experience with MLOps would be a big plus

- Ability to lead and coach

Responsibilities:

- Own and administrate AWS infrastructure. That includes evaluating different options, choosing appropriate services, setting up and maintaining deployment, monitoring and optimizing costs, etc.

- Create and maintain automated CI/CD pipelines

- Maintain dev and test environments of the various software components

- Design and set up other task automations and orchestration of various services of the platform

Perks:

- Stock Options

- Flexible office or WFH conditions

- Learning budget

- Informal and easygoing environment

- A lot of room to develop
